

Malaysia-4

Energy Conservation Training Programs for ASEAN Countries, China and India

Under the policy and support of the Japanese Government, ECCJ has been conducting energy conservation training programs for ASEAN countries, China and India for the purpose of promoting energy efficiency and conservation of those countries. The programs include lectures, practical trainings at trial plants, factory tours, etc. aiming at transferring Japanese successful experiences and information (energy conservation policy, energy management, highly energy-efficient technology, etc.) for energy efficiency and conservation to those countries which could serve as useful reference for their planning/implementation/spread of energy efficiency and conservation.

ECCJ held the energy conservation training program for Malaysia as following;

Number of participants; 27 trainees from Malaysia

Training term; June 18 – 27, 2008

Training site; Japan
