

Tentative report from largest energy consumers to simultaneously track energy efficiency (EE) gains and the shift towards non-fossil energy sources (Decarbonization)

Scope and Designation

Designated Large Energy Consumer	Annual total energy consumption - GWh and Above
Reporting Frequency	Annually
Regulatory Body	Energy Efficiency and Conservation Department Under the Ministry of Industry

Technical and Management

Energy Manager are responsible for preparing the periodic reports and ensuring compliance with non-fossil shift standards.

Periodical Report (Annual)

Total Annual Energy Consumption (by fuel type, in GJ)

Non-Fossil Energy Use (Proportion of total energy)

Greenhouse Gas (CO₂) Calculated Emissions generated due to energy use

Energy Consumption Intensity Targets

Non-Fossil Proportion Targets

Implementation Plan

Specific Energy Consumption (SEC) Benchmarking

Reasons submitted if the Energy Consumption Intensity or Non-Fossil Proportion could not be improved
