

# Outline of the Third Workshop on Energy Conservation Collaboration for East Asia

## 1. Training Schedule

Date and duration : February 9<sup>th</sup> to 11<sup>th</sup>, 2009 (3 days)

## 2. Participants

As the counterparts of the relevant eight countries, an energy conservation promotion organization was selected from each country. ECCJ sent an invitation to the person in charge of the organization.

The participants were mainly executives of the organization and the number of the participants was 24.

## 3. Purpose of the Workshop

- 1) Capacity building of energy conservation organizations
- 2) Reinforcement of the network among the organizations including ECCJ

## 4. Goal of the Workshop

To achieve the purpose described above, the participants make presentations about energy audit results of factories or buildings having conducted by each organization, review them and extract the measures, technologies and equipment they need to promote energy conservation.

To solve the extracted issues, discussion among related parties and information exchanges with Japanese equipment manufacturers (collaboration with members of Japanese Business Alliance for Smart Energy Worldwide) will be implemented.

The participants combine the obtained results and develop the information - sharing.

## Training Schedule

Date			Time	Program
2	9	Mon.	9:15 - 9:30	• Orientation
			9:30 - 10:00	• Program Guidance (Greetings by Mr. Nuibe, Introduction of participants)
