

Outline of the Sixth Workshop on Energy Conservation Collaboration for East Asia (ECC6)

1. Actual Schedule

Date and duration : January 31st – February 2nd, 2012 (3 days)

2. Participants

- 1) As the counterparts of the relevant eight countries, ten energy conservation promotion organizations were invited. The participants were mainly executives of each organization and the total number of participants was 18 from 8 organizations of 6 countries.
- 2) The 18 participants consisted of four from two organizations of China and Vietnam, two from one organization of India and Philippines, three from one organization of Malaysia and Thailand.

3. Purpose of the Workshop

- 1) Capacity building of energy conservation organizations
- 2) Information exchange regarding the progress of energy conservation for each country
- 3) Reinforcement of the network among the organizations including ECCJ

4. Contents of the Workshop

Lectures	<ol style="list-style-type: none"> 1. Efficiency standard for energy saving devices in Japan <ul style="list-style-type: none"> · Top Runner Program and labeling system · Progress of energy saving standard and labeling system in Asian countries · Measuring method and trend of energy consumption efficiency for air conditioners and refrigerators 2. General description about heat pump and heat storage technology
Presentation	<ol style="list-style-type: none"> 1. Existing condition and challenges for energy conservation policies in each countries 2. Trend of labeling system and standard
Discussion	<ol style="list-style-type: none"> 1. Exchange of opinions with JASE-World member companies regarding energy conservation technologies 2. Exchange of opinions with METI officers regarding enhancement of the network among countries and its effective utilization
Proposal	Mutual link of each other's website and to set a contact person to enhance the network among participating organizations
