

Outline of the Fifth Workshop on Energy Conservation Collaboration for East Asia

1. Actual Schedule

Date and duration : February 8th to 10th, 2011 (3 days)

2. Participants

- 1) As the counterparts of the relevant eight countries, ten energy conservation promotion organizations were invited. The participants were mainly executives of the organization and the total number of the participants was 22.
- 2) The 22 participants consisted of five from two organizations of China, four from two organizations of Vietnam, three from one organization of India, and two from one organization of Indonesia, Malaysia, Philippines, Singapore and Thailand, respectively.

3. Purpose of the Workshop

- 1) Capacity building of energy conservation organizations
- 2) Reinforcement of the network among the organizations including ECCJ

4. Contents of the Workshop

- 1) Capacity building for implementing energy conservation activities of energy conservation organizations
 - Presentation of best practices and introduced high-efficiency equipment based on case examples of energy audit by each organization
 - Site visit to a building of excellent case of energy conservation
 - Information gathering by visiting to ENEX exhibition on high-efficiency equipment
 - Information exchange on energy conservation equipment and solution with JASE-W (Japanese Business Alliance for Smart Energy Worldwide) members
- 2) Exchange of opinions on recent developments in each country's policy on energy conservation
 - Update of the summary table of energy conservation law, policy and measures
 - Implementation status of ESCO and status of support/cooperation from international organizations (Joint implementation project between the government and organizations, Technical cooperation, Financial support etc.)
- 3) Discussion on concrete actions for network reinforcement among the organizations

5. Agreement on procedures in the future

- 1) ECC-WS will be held continuously. Many said that the plan coordinated with the visit to ENEX was effective. Therefore, it is planned that the next ECC-WS will be held around February 2012 when ENEX 2012 will be also held. The exchange meeting with JASE-World and a site visit to an excellent case of energy conservation will be included.

Appropriate topics will be selected as WS themes from those which were proposed in discussions in this workshop and which will be newly invited also.

- 2) Besides ECC-WS, new approach, such as regular activities and electronic mailing list for reinforcement of the network will be considered and implemented.

Scenes of the 5th ECC workshop

Workshop Schedule

DATE			TIME	PROGRAM
2	8	Tue	9:30 ~ 10:00	Program Guidance and Introduction of Participants
			10:00 ~ 11:00	Energy Conservation Policy & Measures in Japan
			11:00 ~ 12:30	Presentation and Discussion • Examples on EE&C measures conducted by each organization
			14:00 ~ 17:00	• Recent Trend of EE & C Policy in each Country • Cooperation with International Organizations on EE & C
	9	Wed	9:30 ~ 12:00	Participation and Visit to ENEX exhibition
			14:00 ~ 17:00	Information Exchange with JASE-World Member Companies about Introduction of High Efficiency Equipments
	10	Thu	9:00 ~ 12:00	Site Visit: Excellent Case of Energy Conservation (Building)
			14:00 ~ 17:00	Opinion Exchange on Future Plan (Network Reinforcement and Action Plan)
