

Table of description of respective measures

**Malaysia 2. (3)**

1.Name of measure

Malaysia Electricity Supply Industry Trust Account (MESITA)  
(Started in 1997)

2.Purpose of measure

MESITA is used in the following areas:  
a) Rural Electrification Programme;  
b) R&D Programmes and New Renewable sources of energy projects;  
c) Human resource development programmes for the industry;  
d) Energy efficiency projects;  
e) Development and promotion of the electricity supply industry;  
f) Advance For Projects Approved by Trustee of Electricity Trust Fund.

3.Outline and applicable sectors (transport, buildings, manufacturing, etc.)

Electricity supply

4.Financial resources and budget allocation of measures

The contributors to the fund are the power generating companies. Their contribution is voluntary and they contribute one percent (1%) of their electricity sale (their total annual audited turnover) to the Peninsular Grid or the transmission network to the fund.

5.Method to measure effects of measures (reduction in energy consumption and energy cost, etc.)

Technical Committee of MESITA to evaluate project progress and impact

6.Results of measures

Implementation of feasibility studies on Biomass power generation, hybrid solar-diesel for power generation, landfill gas for power generation and energy audit in Government buildings, rural electrification, R&D for RE fuel sources and implementation, the establishment of Sustainable Energy Development Authority (SEDA), gazetted of Renewable Energy Act 2011 and Sustainable Energy Delopment Authority Act 2011

7.Future tasks

Improve monitoring mechanism of projects under MESITA Fund

8.Others
