

Table of description of respective measures

New Zealand 1. (3) A d)

1.Name of measure

EECA Efficient Products programme

2.Purpose of measure

Aim of the programme is to promote the uptake of energy efficient appliances by New Zealand consumers and businesses (and remove energy inefficient appliances from the market). This is achieved through regulation and labelling.

3.Target sector (transport, building, manufacturing, etc.)

All of economy

4.Funds and budget for the measure

A mixture of departmental own resources and electricity levy funding.

5.Method for measuring the effect of the measure

(energy consumption reduction, energy cost reduction, etc.)

Programme level monitoring and reporting of results to the Minister of Energy and Resources, the Ministry of Business, Innovation and Employment, and EECA's Board.

6.Results of measures

EECA's Efficient Products programme has saved New Zealand an estimated 18.4 PJ since 2002, and an estimated 2.4 PJ in 2014/15.

7.Future tasks

Ongoing

8.Others
