

Philippines

1. Legal framework for improvement of energy efficiency and conservation

(2) Regulatory measures

2) Other regulatory measures

C. Government Energy Management Program

1. Name of measure

Government Energy Management Program (GEMP)
(Started in 2004)

2. Purpose of measure

The GEMP aims to integrate energy efficiency concepts into the operation of government agencies to realize the reduction target of ten percent in electricity and fuel consumption in compliance with the Presidential directive under Administrative Order 126. The major activities under this program includes the conduct of monitoring and energy audit spot check in all government buildings and the conduct of seminars on energy efficiency and conservation for government employees.

3. Target sector (transport, building, manufacturing, etc.)

Government Agencies

4. Funds and budget for the measure

5. Method for measuring the effect of the measure (energy consumption reduction, energy cost reduction, etc.)

Energy consumption reports

6. Results of measures

Attained 10% savings in electricity consumption in government buildings
Adoption of energy conservation practices
Adoption of energy efficient lighting

7. Future tasks

8. Others
