

Philippines

2. Financial measures taken by the government

(3) Subsidies and budgetary measures

B. Support for energy efficiency measures through energy management advisory service

1. Name of measure

Support for energy efficiency measures through energy management advisory service

2. Purpose of measure

This technical service is being offered by the DOE to manufacturing plants, commercial buildings and other energy-intensive companies to evaluate the energy utilization efficiencies of equipment, processes and operations of these companies, and recommend appropriate energy efficiency and conservation measures.

3. Target sector (transport, building, manufacturing, etc.)

Commercial and Industrial establishments

4. Funds and budget for the measure

5. Method for measuring the effect of the measure (energy consumption reduction, energy cost reduction, etc.)

Energy consumption reports

Don Emilio Abello Energy Efficiency Award Program

6. Results of measures

Increased number of companies participating in the recognition program

7. Future tasks

Promote and establish accreditation of Energy Service Companies (ESCOs)

8. Others

9. For further details about measures, please contact:

Department of Energy:DOE

Energy Efficiency Division:EED
